- Highlight: **Door Skin PVC Glossy Film ,
PVC Glossy Film Wood Effect ,**

Product Description

Product Description:

Advantages of Our PVC Foil

Our PVC Foil is primarily made from Polyvinyl Chloride (PVC), a synthetic plastic material known for its durability, flexibility, and ease of processing. It's available in a wide range of colors, patterns, and textures giving users an option to mimic the look of natural materials such as wood, stone, fabric, or metal, providing a cost-effective alternative to these materials while retaining a high-quality aesthetic. As for usability, the foil can be applied to a variety of surfaces, including doors, cabinets, furniture, walls, and more. It adheres well to different substrates and can be used in different area in interior. The foil is renowned for its resilience and strength to deterioration, frequently being used in high-traffic locations. Furthermore, it requires little upkeep once it is placed, just needing to be wiped down with a moist cloth once a week.

The affordability of using pvc foil in comparison to natural materials is one of its great benefits. This makes it possible to create upscale aesthetics without incurring the related expenses. A large range of styles and finishes are available from manufacturers, enabling modification to meet project specifications or the personal design preferences of the user. Decorative pvc foil is commonly used in residential and commercial settings for applications such as kitchen and bathroom cabinets, interior doors, wall paneling, furniture surfaces, retail displays, and more.

Technical Parameters:

We provide a range of products with different specifications for customers to choose from.

The width options are 1260mm and 1400mm. The thickness can be altered between 0.1 and 0.5mm, and the length of each roll ranges from 100 to 400m.

We provide a variety of design choices, including wood grain, solid color, marble and brick. Further, our surface treatments come in matt, super matt, embossed, high gloss, and soft touch forms.

In addition to the various services we offer, such as OEM, ODM, and sample services, we strive to provide customers with the best quality products.
