- Thickness: 0.08mm
- Waterproof: Yes
- Highlight: **Countertop Film Vinyl Self Adhesive 0.08mm**, **Customised Waterproof Self Adhesive Vinyl**, **Waterproof Self Adhesive Vinyl 0.08mm**

Product Description:

Self adhesive color vinyl is a type of flexible PVC (polyvinyl chloride) material known for its durability, flexibility, and weather resistant properties. This makes it ideal for both indoor and outdoor applications. It comes with an adhesive backing that allows it to stick to almost any surface, including glass, metal, plastic, wood, and beyond. The great thing about self adhesive color vinyl is that it comes in a wide variety of colors & finishes, such as solid colors, metallic finishes, matte, and glossy. This makes it an excellent material for creative and customized designs. To cut designs or shapes into the vinyl material, you need to use a cutting plotter or vinyl cutter. The design is then cut out precisely based on digital vector files. After that, the vinyl can be weeded (i.e. the excess removed) and accurately transferred onto the desired surface with the help of transfer tape. Self adhesive vinyl can be applied to almost any surface, making it extremely versatile. You can use it for vehicle windows, signage, walls, banners, laptops, mobile devices, and much more. We also offer transfer tape which plays an important role in applying self adhesive vinyl accurately. If you are in need of transfer tape, don't hesitate to contact us.

Technical Parameters:

We offer a range of high quality THICKNESS at 0.08mm for our customers.
The width of the products measures 1220mm and 600mm, offered in length variations of 50m and 45m per roll.
You can find over 30 colors available to you for your choice.
Both matte and high gloss surface treatments available for you.
We provide efficient OEM and ODM services.

Applications:

Self-adhesive color vinyl is a versatile material that can be used for various creative and practical applications. Its adhesive backing allows you to easily apply it to different surfaces. Here are some common uses for self-adhesive color vinyl:
Signage and Banners: Self-adhesive color vinyl is commonly used for creating signs and banners. You can cut it into letters, shapes, or graphics to design custom signs for businesses, events, or personal use.
Vehicle Graphics: Many businesses and individuals use self-adhesive vinyl to create vehicle graphics, including decals, wraps, and promotional messaging on cars, trucks, and even boats. It's an effective way to advertise and customize vehicles.
Wall Decals: Self-adhesive vinyl can be used to create decorative wall decals and graphics for homes, offices, and retail spaces. It's a popular choice for adding personalized touches to interior design.
Window Graphics: You can apply self-adhesive vinyl to windows for various purposes, including advertising, privacy, and decorative window displays. Perforated vinyl is commonly used for one-way window graphics.
Custom Apparel: Heat transfer vinyl, or HTV, is a kind of self-adhesive vinyl that is applied to textiles and clothes to produce unique designs. Custom T-shirts, caps, and other clothing items are made with it rather frequently.
Craft Projects: Color vinyl that sticks to itself is frequently used in a variety of craft projects. It works well for making personalized labels, stickers, and other home decor products.
Items for Promotion: To add logos, branding, or customized messaging, vinyl stickers and decals can be added to promotional products including phone covers, laptops, water bottles, and notebooks.
Architectural Details: Vinyl film can be applied to surfaces such as doors, cabinets, and furniture to add ornamental features and to create faux finishes that mimic the appearance of wood or other materials.
Floor Graphics: Vinyl that sticks to itself can be used to make long-lasting floor graphics. These are frequently used at retail establishments and events to guide foot movement or advertise goods.
Self-adhesive vinyl is used to make safety signs, labels, and wayfinding signage in public areas, schools, hospitals, and industrial environments.
Festive & Temporary Décor: You can make transient decorations for occasions, events, or theme parties with self-adhesive vinyl. Applying and removing it is simple and doesn't harm surfaces.
Sports Equipment: You can add your own branding or personal touch by customizing certain sports equipment, such skateboards and helmets, with self-adhesive vinyl graphics.
When using self-adhesive color vinyl, it's important to select the right type of vinyl for your specific application (e.g., indoor vs. outdoor use, permanent vs. removable adhesive). Additionally, proper installation techniques and surface preparation are essential to ensure a clean and long-lasting result. Always follow the manufacturer's instructions for the specific vinyl product you are using.

Customization:

Self-Adhesive Vinyl Film provided by **Realsun Deco** has long-lasting durability and can be used both indoors and outdoors. With a minimum order quantity of 1000m/color, our Vinyl Film is available in many colors, such as White, Black, Red, Yellow, Blue, Green, Grey, and Orange. It is also UV resistant and made of Vinyl (PVC).
Our Vinyl Film is perfect for custom vinyl signs, color cutting vinyl stickers, and vinyl signs for businesses. We offer competitive pricing and fast delivery time, with 15-20 days needed for shipment. Payment terms include T/T 30% down payment, 70% balance before shipment. We can supply up to 500000m/month.
Packaging is provided in rolls, and then in cartons for final delivery. If you're looking for a reliable Vinyl Film provider, trust Realsun Deco.

Support and Services:

We provide technical support and service for Self Adhesive Vinyl Film. Our technical experts are available to help with any questions you may have about the product and its applications. We provide training to ensure that our customers can get the most out of their Self Adhesive Vinyl Film. We also offer repair and maintenance services, as well as replacements for any damaged or defective products.

Packing and Shipping:

Packaging and Shipping of Self Adhesive Vinyl Film:
The rolls of Self Adhesive Vinyl Film are packaged in cardboard tubes of varying sizes and securely sealed. Cartons are then used to ship the rolls in a safe and secure manner. Each carton is labeled with detailed instructions and safety warnings. All products are shipped with insurance for added protection.
