- Highlight: **Stylish Pvc Peel And Stick Wallpaper, Customizable Pvc Peel And Stick Wallpaper**

Product Description

Product Description:

Our self adhesive pvc wallpaper is composed primarily of polyvinyl chloride, a synthetic plastic material well known for its durability and versatility. A layer of pressure sensitive adhesive is added to the back of the pvc film and the liner paper, which must be removed before its application. Wallpaper thickness is customizable depending on the specific application and durability. It is available in a variety of finishes, ranging from glossy to matte and textured appearances. Moreover, it is available in many colors and patterns, such as wood grain, marble, and brick designs. This self adhesive pvc wallpaper has a broad range of applications, such as covering walls, furniture, and crafts. DIY projects often require this paper due to its ease of use.

Technical Parameters:

The thickness of our product ranges from 0.1mm to 0.15mm. Furthermore, available widths are 1220mm and 600mm, with length at 50m per roll and 10m per roll.

Also, it has a variety of designs and surface treatments that could meet different needs, such as wood grain, solid color, marble, brick and matt, super matt, embossed, high gloss and soft touch. Best of all, we offer both OEM and ODM services.

Applications:

Here's a general guide on how to apply self-adhesive PVC wallpaper:

Materials you'll need:

Self-adhesive PVC wallpaper

A clean, smooth surface to apply the film to (e.g., furniture, walls, windows, or any other suitable surface)

A measuring tape or ruler

A sharp utility knife or scissors

A squeegee or a credit card

A clean cloth or sponge

A spray bottle with soapy water (optional)

Steps for application:

Prepare the surface: Ensure that the wall you plan to cover with self-adhesive PVC wallpaper is clean, dry, and smooth. Remove any dust, dirt, or imperfections. If the surface is dirty, clean it thoroughly and let it dry completely.

Measure and cut: Measure the dimensions of the surface you want to cover and add a few extra inches to each side to allow for trimming.

Cut the self-adhesive PVC wallpaper to the desired size using a sharp utility knife or scissors. Be precise in your measurements and cutting to ensure a proper fit.

Peel off the backing: Carefully peel back a few inches of the backing paper from one end of the PVC wallpaper. Avoid touching the adhesive side to prevent fingerprints and dirt from sticking to it.

Apply the wallpaper: Begin applying the exposed adhesive side of the PVC wallpaper to the surface. Start at one corner or edge and align it with the surface. As you apply the film, gradually peel off more of the backing paper, smoothing the film onto the surface as you go. You can use a squeegee or a credit card to help remove any air bubbles and ensure a smooth, even application.

Smooth out bubbles: If you notice any air bubbles trapped under the film, use the squeegee or credit card to gently push them out towards the edges. Work from the center outward to expel the bubbles completely.

Trim excess: Once the wallpaper is applied smoothly, use a utility knife or scissors to trim any excess film along the edges. Be cautious when cutting to avoid damaging the surface underneath.

Finish and clean: After trimming, go over the entire surface with a clean cloth or sponge to ensure that the PVC wallpaper is securely adhered and free from any air bubbles or wrinkles. If you used soapy water during application, wipe away any excess water or soap residue.

Final inspection: Inspect the surface to ensure that the PVC film is securely in place and free from imperfections. If you encounter any issues, gently lift the film and reapply as needed.

Self-adhesive PVC wallpaper can be used for a wide range of purposes, so make sure to follow the specific instructions provided by the manufacturer if you have a unique application in mind. Proper surface preparation and careful installation are key to achieving a professional-looking result.

Customization:

Customized Self Adhesive PVC Wallpaper

Brand Name: Realsun Deco

Place of Origin: Foshan, China

Minimum Order Quantity: 3600sqm/model

Price: Negotiable
