Basic Information

- Place of Origin: Foshan, China
- Brand Name: Realsun Deco
- Minimum Order Quantity: 3000m/model
- Price: Negotiable
- Packaging Details: Pack in roll
- Delivery Time: 15-20 days
- Payment Terms: T/T 30% down payment, 70% balance before shipment
- Supply Ability: 500000m/month

Product Specification

- Size: 122cm*50m, 60cm*10m
- Design: Wood Grain, Marble, Brick, Stone, Plain Color Etc.
- Material: PVC
- Thickness: 0.08mm-0.15mm
- Durability: Excellent
- Adhesive: Acrylic Pressure Sensitive Adhesive
- Liner Paper: 80gsm, 100gsm, 120gsm
- Surface: Glossy/Matte/Super Matte/Embossed/Soft Touch
- Highlight: Furniture Renew Wood Grain Film,
Furniture Renew wood effect film,
Wood Grain Film Self Adhesive 0.08mm

Product Description

Wood Grain Design Contact Paper Roll for Furniture Decoration Renew Home Application

Product Description:

Our self adhesive pvc film is primarily composed of polyvinyl chloride, a synthetic plastic material known for its durability and versatility. There is a layer of pressure sensitive adhesive on the back of the pvc film, and the liner paper is removed before application. This self adhesive pvc film can be made in different thicknesses depending on the application and durability requirements. It also has a variety of finishes, such as glossy, matte, satin and textured finishes, which can affect the appearance and feel of the material. In addition, the self adhesive film has a wide range of colors and patterns, like wood grain design, marble design, brick design and so on. It is widely applicable, as it can be used to cover walls and furniture, and is popular for its ease of use in various craft and DIY applications.

Features:

Product Name: Self Adhesive PVC Film

Liner Paper: 80gsm, 100gsm, 120gsm

Adhesive Strength: High

Size: 122cm*50m, 60cm*10m

Durability: Excellent

Material: PVC

Special Features: Adhesive Contact Paper, Self Adhesive Vinyl Rolls, Adhesive Vinyl Sheets

Technical Parameters:

We offer PVC panel of different thickness: 0.1mm-0.12mm. It can be cut to different size, such as 1220mm or 600mm width, 50m/roll or 10m/roll length.

The design varies from traditional wood grain to modern marble, brick and solid color, with different surface treatment, like matt, super matt, embossed, high gloss and soft touch.

Moreover, OEM and ODM services are available.

Applications:

Self-adhesive PVC film is a multi-purpose material that can be used for a range of applications, such as home improvement, crafts, signage, and more. Each project may require different techniques, but here is a general guide of how to apply self-adhesive PVC film:

Materials you'll need:

Self-adhesive PVC film

A clean, smooth surface to apply the film to (e.g., furniture, walls, windows, or any other suitable surface)

A measuring tape or ruler

A sharp utility knife or scissors

A squeegee or a credit card

A clean cloth or sponge

A spray bottle with soapy water (optional)

Steps for application:

Prepare the surface: Ensure that the surface you plan to cover with self-adhesive PVC film is clean, dry, and smooth. Remove any dust, dirt, or imperfections. If the surface is dirty, clean it thoroughly and let it dry completely.

Measure and cut: Measure the dimensions of the surface you want to cover and add a few extra inches to each side to allow for trimming.

Cut the self-adhesive PVC film to the desired size using a sharp utility knife or scissors. Be precise in your measurements and cutting to ensure a proper fit.

Peel off the backing: Carefully peel back a few inches of the backing paper from one end of the PVC film. Avoid touching the adhesive side to prevent fingerprints and dirt from sticking to it.

Apply the film: Begin applying the exposed adhesive side of the PVC film to the surface. Start at one corner or edge and align it with the surface. As you apply the film, gradually peel off more of the backing paper, smoothing the film onto the surface as you go. You can use a squeegee or a credit card to help remove any air bubbles and ensure a smooth, even application.

Smooth out bubbles: If you notice any air bubbles trapped under the film, use the squeegee or credit card to gently push them out towards the edges. Work from the center outward to expel the bubbles completely.

Trim excess: Once the film is applied smoothly, use a utility knife or scissors to trim any excess film along the edges. Be cautious when cutting to avoid damaging the surface underneath.

Finish and clean: After trimming, go over the entire surface with a clean cloth or sponge to ensure that the PVC film is securely adhered and free from any air bubbles or wrinkles. If you used soapy water during application, wipe away any excess water or soap residue.

Final inspection: Inspect the surface to ensure that the PVC film is securely in place and free from imperfections. If you encounter any issues, gently lift the film and reapply as needed.

Self-adhesive PVC film can be used for many projects, so make sure to read the instructions for the specific project. Proper surface preparation and careful installation will guarantee great results.

Customization:

Realsun Deco provides custom services for Self Adhesive PVC Film. Our Self Adhesive PVC Film is from Foshan, China and the minimum order quantity is 3000m/model. The price of the product is negotiable and it will be packed in rolls. The delivery time is 15-20 days, payment terms are T/T 30% down payment, 70% balance before shipment. Our product supply ability is 500000m/month. The size of the product is 122cm*50m, 60cm*10m and the thickness is 0.08mm-0.15mm. The material is PVC and the adhesive strength is high.
